ABSTRACT

This publication presents information regarding higher education opportunities for minorities and women, progressing from general to specific information. All information is sequenced in an alphabetical order by title or description of the listing. Section I contains general information about books, brochures, lists, and publications that describe a variety of higher education opportunities many of which solicit, give preference to, and/or advertise to minority applicants. The listings include prices when available and addresses to write to for further information. (It is noted that many of the publications can be found in public, college, or high school libraries, or obtained from guidance counselors or other student personnel or financial aid workers.) Section II lists general undergraduate opportunities that do not specify an academic area or that are available in more than one academic area. Section III lists undergraduate opportunities by academic area. Section IV includes general graduate opportunities that either do not specify academic areas or apply to multiple academic areas. Section V includes graduate opportunities listed by academic area, and Section VI lists all postdoctoral opportunities without regard to academic area or alphabetical order. (GLR)

FOREWORD

Higher Education Opportunities for Minorities and Women Annotated Selections (formerly, Selected List of Postsecondary Education Opportunities for Minorities and Women) was developed to assist parents and students in their search for sources of postsecondary financial aid opportunities. This 1991 edition updates information and includes additional listings. This publication is not a definitive compilation of all special opportunities available for minorities and women. Rather it contains a selected list of opportunities available to those minorities and women who wish to diligently pursue their carrier goals through a program of higher education.

Although designed primarily for minorities and women, many of the listed opportunities are for all students. In some instances, information is provided on loans, scholarships, and fellowships. Also included is general information on how and where to seek assistance to prepare oneself to pursue postsecondary education. The publication is divided into six major sections. The sources of information are arranged alphabetically under each major heading and/or subject area.

Materials may be ordered from addresses listed in the publication. Unless otherwise indicated, all orders must be prepaid. Costs cited may or may not include shipping and handling charges. Items are identified which have quantity discounts. Prices are subject to change without notice.

Listed below are general rules to follow when seeking financial aid:

1. Allow at least a year before anticipated attendance at a school of higher learning to seek financial aid.

2. Explore all the possibilities--Federal, State, and private sources.

3. Don't expect exceptions to be made if you don't adhere to the rules and regulations in filing for aid, such as honoring deadlines and filling out forms legibly and correctly.

Special appreciation is extended to those public and private agencies which furnished much of the information presented in this publication. Appreciation also is extended to Mrs. Linda Byrd-Johnson who compiled prior editions of this publication under the supervision of Mrs. Carol Joy Smith, and to Dr. Reginald Pearman, who initiated the compilation of the 1984 edition prior to the assumption of this responsibility by Dr. William C. Young. Special appreciation also is extended to Joyce Thomas and Carnisia Proctor for typing drafts of this document and to Edward L. Hicks for supervising the development of the 1989 edition.

We hope that the information herein will encourage and enable more minorities and women to achieve their goals.

Assistant Secretary
for Postsecondary Education

HOW TO USE THIS PUBLICATION

This publication presents information regarding higher education opportunities for minorities and women and progresses from general to specific information. All information is sequenced in a alphabetical order by title or description of the listing.

Section I contains general information about books, brochures, lists, and publications that describe a variety of higher education opportunities many of which of which solicit, give preference to, and/or advertise that they and minority applicants. The listings include prices when available and addresses to write to for further information. Many of these publications can be found in public, college, or high school libraries, or obtained from guidance counselors or other student personnel or financial aid workers.

Section II lists general undergraduate opportunities that do not specify an academic area or that are available in more than one academic area. Section III lists undergraduate opportunities by academic area.

Section IV includes general graduate opportunities that either do not specify academic areas or apply to multiple academic areas. Section V includes graduate opportunities listed by academic area and Section VI lists all postdoctoral opportunities without regard to academic area or alphabetical order.

In cases in which opportunities are applicable to more than one level of study and to more than one academic area, information is duplicated under each appropriate heading.

SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY: CAREER INFORMATION FOR MINORITY STUDENTS. Office of Minority Concerns, American Speech-Language-Hearing Association, 10801 Rockville Pike, Rockville, Maryland 20852. Single copies, free.

Speech-language pathologists and audiologists have long been a successful part of health, education, and rehabilitation efforts for people with communication disorders; i.e., impairments of speech, language, voice, and hearing. These professionals work in schools, hospitals, health centers, university clinics, community centers, and private practice. Most provide direct clinical services; others work in teaching, clinical supervision, administration and research positions.

The booklet, **Speech-Language Pathology and Audiology: Career Information for Minority Students** describes the communicative disorders profession and is a valuable resource for identifying university programs that have active minority recruitment efforts and financial aid.

THE U.S. DEPARTMENT OF EDUCATION OFFERS FIVE MAJOR STUDENT FINANCIAL AID PROGRAMS:

Pell Grants
Supplemental Educational Opportunity Grants (SEOG)
College Work-Study (CWS)
Perkins Loans, formerly National Direct Student Loans (NDSL)
Guaranteed Student Loans (GSAL)/PLUS Loans/Supplemental Loans for Students (SLS)

Grants are awards that you do not have to pay back.

Work-Study gives you the chance to work and earn the money you need.

Loans are borrowed money that you must repay with interest.

Undergraduates may receive aid from all three types of programs. Graduate students may apply for loans or work-study but not for grants.

Not all schools take part in all the programs. To find out which ones are available at a school, contact the school's financial aid office.

The deadline is May 1. Your Federal student aid application, your information from any of the non-Federal forms, your Special Condition Application must be **received** at the Federal processing center by this date. But don't wait for this deadline--the earlier you apply, the better.

June 30, --or your last day of enrollment, whichever comes first, is the deadline for submitting your Student Aid Report (SAR) to your school's financial aid office. However, you should turn in your SAR as soon as possible.

Pell Grants

What is a Pell Grant?

Pell Grants are awards to help undergraduates pay for their education after high school. For many students, these grants provide a "foundation" of financial aid to which aid from other Federal and non-Federal sources may be added. Unlike loans, grants do not have to be paid back.

How do I qualify?

The Department of Education uses a standard formula, passed into law by Congress, to evaluate the information you report when you apply for Pell Grant. The formula produces a Student Aid Index number. Your Student Aid Report contains this number and will tell you whether you are eligible for a Pell Grant. The formula used to determine your Student Aid Index is too long to be included here. However, you can get a booklet that describes the formula in detail by writing to Formula Book, Department K-9, Pueblo, Colorado 81009-0015.

How much can I get?

Awards will depend on program funding. However, how much you actually receive will depend on your Student Aid Index number, the cost of education at your school, and on whether you are a full-time or part-time student.

Supplemental Education Opportunity Grants (SEOG)

What is an SEOG?

A Supplemental Educational Opportunity Grant (SEOG) is an award to help you pay for your education after high school. It is for undergraduate students with exceptional financial need, and it does not have to be paid back.

When should I apply?

Different schools set different deadlines. They are usually early in each calendar year, so apply as soon as possible. Find out what the deadlines are by checking with the financial aid administrator at your school.

College Work-Study

What is College Work-Study?

The College Work-Study (CWS) Program provides jobs for undergraduate and graduate students who need financial aid. CWS gives you a chance to earn money to help pay your education expenses.

How much can I make?

Your pay will be at least the current Federal minimum wage, but it may also be related to the type of work you do and its difficulty. Your total CWS award depends on your need, the amount of money your school has for this program, and the amount of aid you get from other programs.

When do I apply?

Each school has its own deadlines. However, they are usually early in each calendar year, so apply as soon as possible. Find out what the deadlines are by checking with the financial aid administrator at your school.

Perkins Loans (formerly National Direct Student Loans)

What is a Perkins Loan?

A Perkins Loan is a low-interest loan to help you pay for your education after high school. These loans are for both undergraduate and graduate students and are made through a school's financial aid office. Check with your financial aid administrator to find out if your school takes part in the Perkins Loan program.

How much can I get?

The availability of Perkins Loan funds at your school and the amount of other aid you are receiving, determine the amount you will receive.

When do I apply?

Each school sets its own deadlines. They are usually early in each calendar year, so apply as soon as possible. Find out what the deadlines are by checking with the financial aid administrator at your school.

Guaranteed Student Loans

What is a GSL?

A Guaranteed Student Loan (GSL) is a low-interest loan made to you by a lender such as a bank, credit union, or savings and loan association to help you pay for your education after high school. These loans are insured by the **guarantee agency** in your State and reinsured by the Federal Government.

How much can I borrow?

You can't borrow more than the cost of education at your school minus any other financial aid you receive.

How do I apply?

You can get a GSL application from a lender, a school, or from your State **guarantee agency**. After you fill out your part of the application, the school you plan to attend must complete its part, certifying your enrollment, your **cost of education**, your academic standing, any other financial aid you will receive, and your financial need.

When should I apply?

You should begin looking for a lender as soon as you are accepted by your school. After you submit your application to a lender and the lender agrees to make the loan, it usually takes 4 to 6 weeks to get your loan approved by the guarantee agency.

PLUS Loans/Supplemental Loans

What are PLUS and SLS Loans?

Plus loans are for parent borrowers; SLS's are for students. Both loans provide additional funds for education expenses and, like GSL's, are made by a lender such as a bank, credit union, or savings and loan association.

How do I apply?

The same way that you apply for a GSL. Unlike GSL borrowers, however, PLUS and SLS borrowers do not have to show need, although they may have to undergo a credit analysis.

SOROPTIMIST INTERNATIONAL OF THE AMERICAS, INC.: YOUTH CITIZENSHIP AWARDS.

The Youth Citizenship Awards are cash awards of $1,250 each given annually to 43 outstanding young men and women in graduating classes in both public and private high schools, or their equivalent, within the territorial limits of Soroptimist International of the Americas. One finalist is chosen from among these 43 regional/area recipients to win an additional $2,000 award. The purposes are twofold: to recognize school and community efforts and achievement and to encourage continuing high concepts of patriotism and effective cooperation in home, community, national and international affairs. The awards are given to students in their senior year of high school. The Youth Citizenship Awards are "awards of merit, " rather than scholarships, and may be used at the discretion of the recipients in a manner which will best help them to meet their lifetime goals.

Applicants fill out a four-page application available from the local participating club of Soroptimist International of the Americas. To qualify, a student must have demonstrated the following during the high school years: service in home, school, and community; dependability, leadership, and clear sense of purpose.

The Youth Citizenship Awards begin on the club level, with applications being distributed by participating Soroptimist clubs in 20 countries/territories. Their listing can be found in the telephone directory, Chamber of Commerce Directory, Status of Women Office, City Hall, League of Women Voters, and many other agencies. Clubs choose their own recipients, giving awards at their own discretion. Club recipients then become eligible for the regional/are award of $1,250, and out of those winners, the finalist, receiving an additional $2,000.

The official program ends on December 15 of each year. However, clubs may have their own deadlines, so it is essential that you check the application you have received from the local Soroptimist club and adhere to their deadline.

SOROPTIMIST INTERNATIONAL OF THE AMERICAS: TRAINING AWARDS. The Training Awards are cash awards of $1,500 each given annually to 43 women within the territorial limits of Soroptimist International of the Americas. The awards are designed to aid the mature woman who, as head of a household, must enter or return to the job market or further her skills and training in order to upgrade her employment status. The official program ends on December 15 of each year. However, clubs may have their own deadlines, so it is essential that you check the application you have received from the local Soroptimist Club and adhere to its deadline. Recipients are chosen on the basis of financial need as well as for a statement of clear career goals, with primary consideration given to women entering vocational or technical training or completing an undergraduate degree.

The Training Awards begin on the club level, with applications being distributed by participating Soroptimist Clubs. Their listings can be found in the telephone directory, Chamber of Commerce Directory, Status of Women Office, City Hall, League of Women Voters, and many other agencies. Clubs choose their own recipients, giving awards at their own discretion. Club recipients then become eligible for the regional/area award of $1,500.

SQUIRE SCHOLARSHIPS. Two similar scholarships are available to members of the Columbian Squires. The Squire is to be entering the freshman year in a program leading to a bachelor's degree. The scholarships are competitive, and awards will be made on the basis of academic excellence. The amount of each scholarship is $1,000 and is granted for one year. The scholarship is renewable each year of undergraduate study to a total of four years upon evidence of satisfactory academic performance and subject to the discretion of the Committee on Scholarships. Recipients must be in good standing in the Columbian Squires.

One of these scholarships must be used at the Catholic University of America by a Squire who has been accepted as an entering freshman. An application form is obtained from the Director of Financial Aid, Catholic University of America, Washington, D.C. 20064. The final date for filing the application for this scholarship is February 1.

The other scholarship may be used at any Catholic college or university selected by the student. An application form for this scholarship is obtained from the **Director of Scholarship Aid, Knights of Columbus, P.O. Drawer 1670, New Haven, Connecticut 06507.** The final date for filing the application for this scholarship is March 1.

Program must be completed within 24 months. For applications and information, please send a stamped, self-addressed, business-sized envelope with two stamps between February 1 and April 1 for the April 15 deadline and between July 1 and September 1 for the September 15 deadline.

COLLEGE OF INSURANCE has a cooperative program called the Corporate Sponsors Program, in business administration, insurance, and in actuarial mathematics. Both run on a 5-year plan of alternating trimesters (4-month terms) of work and study, the first leading to B.B.A. degree, the later to a B.S. Each undergraduate, upon being accepted by a sponsoring organization, will return to that organization every other trimester for paid work experience. While in school, the sponsor subsidizes two-thirds of the tuition and often returns the other third in the form of two annual bonuses if the student elects to stay with the sponsoring firm upon graduation.

Corporate sponsors include over 50 major life and property-liability insurance companies, brokerages, agencies, and service organizations. The co-op starts in the freshmen year, with students typically rotating through major departments of the sponsoring firm in progressive work period; total earnings over the 5 years average at least $20,000. The college is accredited by the New York State Board of Regents and the Middle States Association of Colleges and Secondary Schools. For further information, write to: Director of Corporate Sponsors Program, the College of Insurance, 101 Murray Street, New York, New York 10007.

NATIONAL ASSOCIATION OF BANK WOMEN. Nancy Ring, Projects Manager, NABW Educational Foundation, Suite 1400, 500 North Michigan Avenue, Chicago, Illinois 60611.

The Association, in conjunction with Mundelein College in Chicago, offers a Bachelor's Degree Program in Management. This unique program meets the banking industry's need for developing managerial talent and enables women bankers to get the management education they often lack. In a course specifically tailored to the needs of those committed to a full-time banking career, it is possible to get a bachelor's degree from Mundelein within a 3 to 5 year period, while spending only 4 weeks per year away from the bank. Classroom-gained knowledge can be supplemented by regular evening and/or weekend courses. Academic credit for prior learning experience can be gained through each of these college programs.

NATIONAL ACTION COUNCIL FOR MINORITIES IN ENGINEERING. National Action Council for Minorities in Engineering, 3 West 35th Street, New York, New York 10001.

The National Action Council for Minorities in Engineering, Inc. (NACME), is a nonprofit coalition of corporations, universities, local programs, and others committed to increasing the number of minority engineers.

To accomplish this goal, NACME obtains financial support from corporations, foundations, and others who endorse the national minority engineering effort. The funding supports NACME's activities with pre-college programs and engineering colleges, in providing the impetus to significantly raise the number of minorities entering and graduating from engineering schools.

NACME, as the central organization and catalyst for the national minority engineering effort, performs those tasks that are best done nationally while assisting regional and local programs to do what may best be carried out at the local level.

The major portion of NACME's budget is directed to minority students through incentive grant scholarships which are administered by selected engineering colleges. For the 1984-85 academic year, more than $3 million was distributed to 144 schools in support of approximately 4,200 students.

NACME also provides technical assistance to local organizations that motivate minority students to study science and mathematics. The goal is to ensure that students are academically prepared and adequately motivated to pursue engineering careers.

MILITARY

AIR FORCE ROTC is conducted at colleges and universities located throughout the United States, Puerto Rico, and the District of Columbia. Students may earn a commission by successfully completing either the Air Force ROTC Four-Year Program or the Air Force ROTC Two-Year Program. Air Force ROTC offers Four-,Three-, and Two-Year Scholarships on a competitive basis to both men and women students. The scholarships cover full tuition, certain fees and expenses associated with required courses, cost of curriculum-required text books, and a $100 nontaxable allowance each month during the school year. Scholarships are available in several categories to qualified applicants. However, as the needs of the Air Force change, scholarship offerings will be changed accordingly. Applications (DD Form 1893) for the Four-Year Scholarships are contained in the brochure **Scholarship Applicant Booklet.** Send directly to Air Force ROTC, Selections Division, Maxwell

AFB, Alabama 36112. Deadline date for submitting applications for the Four-Year Scholarships is December 1 preceding the fall term of the school year in which the student plans to enter college. Applicants for Four-Year Scholarships must take either the SAT or the ACT Tests. Deadline date can be no later than the December Test cycle.

Applicants for the Three-and Two-Year Scholarships should be made to the Professor of Aerospace Studies at the hosting institution during the students' freshman or sophomore year of college, respectively. Application forms will be furnished by the professor of Aerospace Studies at the Air Force ROTC detachment. Information can be obtained by contacting the Air Force ROTC detachment on campus or by writing to Air Force ROTC, Recruiting Division, Maxwell Air Force Base, Alabama 36112.

ARMY CONTINUING EDUCATION. The Army seeks to offer all soldiers an opportunity for continuing education equal to that available if they had not entered the Army. Through the Air Continuing Education System (ACES), a variety of academic and non-academic educational opportunities are available.

ACES has three objectives: to enhance individual professionalism and skills; to increase the Army's ability to attract and retain the best available, highly motivated individuals; and to fulfill personal educational aspirations (within funding restraints).

All Army installations with a troop strength of 750 or more must have an education center or subcenter. Services and programs offered included:

Basic Skills Education Program (BSEP): BSEP refers to functionally oriented, job-related skills for soldier development. Reading, writing, arithmetic, and oral communication instruction are provided at the initial entry training station and later at the permanent duty station. Those needing BSEP, with the approval ofthe commanding officer, are taught on duty. Soldiers who are non-high school graduates are encouraged to enroll in local, adult, off-duty high school programs, free of charge, or they may take the General Education Development test.

High School Completion Programs: Courses taken off-duty to attain a high school diploma or equivalency certificate. Current regulations authorize 100 percent funding.

English-as-a-Second Language (ESL) Program: During basic training, soldiers whose primary language is other than English are tested. Those scoring below 70 are identified to commanders by education counselors as solider in a course lasting up to 6 weeks (self paced). Arriving at permanent duty stations, soliders found deficient in English comprehension may take a sustaining ESL course. Principal consideration in commander selection is willingness to learn and to use skills productively.

Foreign Language Courses: Self or group-study materials (other than in a course for credit) are available to help soliders develop basic-level language skills and some understanding of the culture and people in whose courtry they are to be stationed. Other Army related language courses also are available.

Advanced Skills Education Program (ASEP): This program is designed to enhance career growth and to improve military duty performance for selected noncommissioned officers. Its purpose is to reinforce managerial, supervisory, and communications skills (directly related to Army requirements) inherent in the soldier's career field or occupational specialty. Compatible with other programs, college-level credit may be awarded upon course completion.

Servicemembers Opportunity Colleges: The Servicemembers Opportunity Colleges (SOC) is a network of institutions agreeing to take part in a program serving the special needs of the military. They do this by offering classes at nontraditional or off-duty hours, establishing a flexible credit transfer policy, having residency requirements accommodating mobility, recognizing military and nontraditional learning, and providing academic assistance to soldiers.

Servicemembers Opportunity Colleges Associate Degree (SOCAD) Program: This program was developed by SOC in cooperation with ACE and consists of 49 institutions offering associate degrees in 16 areas worldwide. It includes: residency limited to a program maximum of 25 percent completed at any time, guaranteed automatic transfer of courses within a curriculum area acceptance of ACE Guide and other nontraditional credit sources, and the completion of an official evaluation on a standard form. Soliders receive and agreement from a home institution, take courses there to complete the residency, then finish coursework with other colleges to transfer to the home college for the degree.

Educational Counseling: Army education centers are staffed with professionally caliphate counselors who assist soliders in vocational and educational decisions. Initial counseling begins in basic training and continues within 30 days after arrival at each permanent duty station, with periodic follow-ups throughout his/her military career.

Defense Activity for Nontraditional Education Support (DANTES): This program offers correspondence courses through more than 50 accredited colleges and universities, nationally recognized examinations, and certification programs. The correspondence courses range from high school to postgraduate level and may be financed through the Veterans Administration or Army tuition assistance.

Army Apprenticeship Program: This program allows soldiers in specified apprenticeable occupational specialties to document their Army training and experience and receive Journey Worker Certificates from the Department of Labor. Each Apprenticeship is patterned after an existing civilian program registered with the Department of Labor's Bureau of Apprenticeship and Training and may be transferred to postservice employment.

Skill Development: Non-credit courses are offered in technical aspects of military skills to support occupational specialty improvement and for vocational/technical courses from accredited institutions to achieve personal educational goals.

MOS/SQT Reference Library: Each education center has a library for soliders to obtain and study technical materials for individual occupational specialties and skill-level training. Study materials may be supplemented by learning center equipment (audiovisual instruction devices), tapes, and video cassettes.

Degree Program: Associate degrees (other than Servicemembers Opportunity Colleges Associate Degree), baccalaureate degrees, and graduate degrees are available from accredited civilian institutions.

Tuition Assistance: "Funds are available to defray tuition costs and other related instructional expenses for approved off-duty courses at accredited institutions."

Learning Centers: These centers provide commanders with a full range of support to train and educate soliders. Equipment, materials, language laboratories, military occupations, specialty libraries, and the people to assist in their use are available. Soldiers may use these for self-improvement, skill and occupational specialty improvement, or any other education and training.

Testing: Each education center has testing facilities and a qualified test administrator. Three general categories of tests are usually given: achievement tests to gain recognition for nontraditional learning, tests for placement in academic programs and interest in inventories for counseling. Tests may included: College Level Examination Program (CLEP), Subject Standardized Tests (SST), Scholastic Aptitude Test (SAT), and American College Test (ACT). With the exception of SAT and ACT, tests are free.

Veterans Education Assistance Program (VEAP): VEAP is essentially a replacement for the educational provision of the GI Bill (not available to those enlisting after January 1, 1977). It is a contributory program. The soldier agrees to give to an educational saving fund where the government matches $2 for every $1 given--to a maximum of $7,200 for 2 years; $8,100 there after. Monthly payroll deductions may range from $25 to $100. DOD is authorized to place additional monies to the VEAP account, up to $20,100 for selected soldiers.

U.S. COAST GUARD. The U.S. Coast Guard offers a number of educational opportunities which are discussed in the booklets listed below and which may be obtained from the local Coast Guard recruiter.

U.S. COAST GUARD ACADEMY: BULLETIN OF INFORMATION

The Coast Guard Academy offers high school graduates the opportunity to obtain a college education and a commission as an officer in the Coast Guard. Appointments are tendered solely on the basis of an annual nationwide competition. All applicants participate in the competition on an equal basis. The **Bulletin** provides information on admission requirements, courses of instruction, and cadet life.

HELP YOURSELF: A GUIDE TO ENLISTED CAREERS IN THE COAST GUARD

This booklet lists Coast Guard benefits which are available to all who enlist. In addition to general education benefits, it provides information on special programs, a detailed discussion about careers, and ways to advance oneself.

OPPORTUNITIES AFTER COLLEGE

Offers a detailed discussion of Coast Guard opportunities that are available to college graduates. Requirements and qualifications for the Coast Guard's Officer Candidate School and education opportunities after OCS are also provided.

U.S. MARINE CORPS. A variety of education programs have been established to assist Marines in developing their full potential. Education officers and career planners assigned to Marine Corps activities provide counseling and guidance to personnel interested in furthering themselves academically or the attainment of both professional and personal goals.

The Marine Corps provides on-duty vocational training for Marine military occupational specialists, many of which have counterparts in the civilian employment sector. The American Council on Education has evaluated Marine Corps training programs and provided recommendations for college credit in its publication, **Guide to the Evaluation of Educational Experiences in the Armed Services**. Credit toward a vocational certificate or college degree may be accrued through successful completion of Marine Corps schools.

Enlisted and officer education programs are outlined in the pamphlet, "Education Programs in the Marine Corps," which is available through local Marine recruiters. Postsecondary education programs available to Marines include:

> **Broadened Opportunity for Officer Selection and Training (BOOST):** Provides an opportunity for selected Marines of all ethnic groups from educationally deprived or culturally differentiated backgrounds to compete more equitably for selection in the Marine Corps Enlisted Commissioning Educational Program (MECEP), the U.S. Naval Academy, or the Naval Reserve Officers Training Corps (NROTC). The program provides a 12-month education program for selected Marines to prepare them for entrance into these programs.
>
> **Marine Corps Enlisted Commissioning Education Program (MECEP):** Provides selected enlisted Marines with the opportunity to earn a baccalaureate degree by attending a college or university as full-time students. Those individuals who successfully obtain a baccalaureate degree and complete officer candidate training are commissioned second lieutenants in the Regular Marine Corps.
>
> **Degree Completion Program for Staff Noncommissioned Officers:** Provides selected Marine staff noncommissioned officers with the opportunity to obtain a baccalaureate degree which directly relates to a Marine Corps job requirement and, concurrently, satisfy a personal educational goal by attending a college or university as full-time students for up to the equivalent of 2 academic years.

College Degree Program (CDP): Provides selected Marine officers with the opportunity to complete a baccalaureate program by attending a college or university as a full-time student for up to the equivalent of 2 academic years.

Marine Corps Tuition Assistance Program: Provides Marines financial assistance for college courses taken for academic credit, during off-duty time, at regionally accredited colleges and universities. Additionally, tuition assistance payments may be made to qualifying educational institutions conducting the Marine Corps Off-Duty High School Completion Program. The Marine Corps may pay up to 75 percent of the cost of tuition for approved college courses (and up to 90 percent for enlisted personnel, sergeant and above, with less than 14 years service) and 100 percent for high school completion. The remaining tuition and/or fees, as well as the cost of books, materials, and similar fees and expenses, are borne by the student.

The Marine recruiter or career planner has up-to-date facts on all educational and career opportunities. Call the Marine recruiter nearest you.

NAVAL ROTC is conducted at 65 colleges and universities located throughout the United States. Students may earn a commission as ensign, U.S. Navy or second lieutenant, U.S. Marine Corps, by successfully completing the NROTC Navy-Marine Corps Scholarship Program. Naval ROTC offers four-year and two-year scholarships to both men and women candidates. Scholarships cover full tuition, educational fees, books, uniforms and a $100 nontaxable subsistence allowance per month (maximum 40 months). Applicants for the Four-Year Scholarship Program must make application during the period between March 1 to December 1 of the year prior to desired enrollment and take either the SAT or the ACT Tests and arrange with the appropriate testing agency to forward test results to NROTC Scholarship Program (release code 0656) to be received by December 31. Information and applications are available from Navy or Marine Corps recruiting stations, from high school/college counselors, NROTC units and the Commander, Navy Recruiting Command (Code 314), 4015 Wilson Boulevard, Arlington, Virginia 22203. Two-Year NROTC Scholarship Program applicants must enter one of the 65 NROTC host institutions with junior status at the time of enrollment in the program. Application period is June 1 to April 1 of the year of anticipated enrollment. Information concerning the Two-Year NROTC Scholarship Program may be obtained from Navy recruiting district officers, NROTC units, or the address above.

HUBERT H. HUMPHREY DOCTORAL FELLOWSHIPS IN ARMS CONTROL AND DISARMAMENT. Hubert H. Humphrey Fellowship Program, U.S. Arms Control and Disarmament Agency, Washington, D.C. 20451.

The U.S. Arms Control and Disarmament Agency (ACDA) conducts a program of Hubert H. Humphrey Fellowships in Arms Control and Disarmament. Nine rounds of competition have been held since the program's inception in 1979, and 50 awards have been made, named in honor of the Agency's Congressional "founding father," the Fellowships are intended to stimulate interest in the study of arms control by supporting unclassified doctoral dissertation research in the field. Candidates for the J.D. (law) are also eligible for Fellowships. This program is part of the Agency's legislatively mandated responsibilities for the "conduct, support, and coordination of research for arms control and disarmament policy formulation."

Students in a wide range of academic disciplines--including, but not limited to, political science, economics, law, sociology, psychology, physics, chemistry, biology, engineering, philosophy, public, operations research, and area studies--may apply.

Applicants must be U.S. citizens or nationals at the time of application and recipients must have completed academic requirements at a U.S. college or university for the doctorate (excluding dissertation) by the date the fellowship begins. J.D. candidates are also eligible if they will receive 20 percent of the required third-year academic credits for the writing of a research paper.

The basic fellowships are awarded for Ph.D. dissertation research and are normally for a period of 12 months commencing in either September or January. Each Fellow will receive a stipend of $5,000. In addition, ACDA will pay any applicable tuition and fees for 1 year up to a maximum of $3,400 to the institution in which the fellow is enrolled. For J.D. candidates, who unlike Ph.D. candidates do not devote a full year to research, the Fellowship stipend of $5,000 and the tuition grant of up to $3,400 will be prorated by dividing the number of credits assigned to the writing of the J.D. paper by the total number of credits required by the Fellow's law school; in no case, however, shall the stipend be smaller than $1,000, nor shall the tuition be less than 20 percent of the tuition charged by the law school.

No dependency allowances will be paid. No applicant will be eligible for more than one Humphrey Fellowship, although in exceptional cases extensions for Ph.D. candidates of up to 3 additional months may be granted (prorated at $420 per month).

INDIAN FELLOWSHIP PROGRAM. Ms. Dorothea Perkins, Coordinator, Indian Fellowship Program, U.S. Department of Education, Room 2177, FOB-6, 400 Maryland Avenue, S.W., Washington, D.C. 20202, (202) 732-1909.

Authorized by the Indian Education Act, the program provides fellowships to Indian students for:

> undergraduate and graduate degree programs in business administration, engineering, natural resources, and related fields; and
>
> graduate degree programs in education, law, medicine, and related fields.

Fellowships are available to Indian students who demonstrate financial need and are based on the following definition:

> The term "Indian" means any individual who (1) is a member of a tribe, gang, or other organized group of Indians, including those tribes, bands, or groups terminated since 1940 and those recognized by the State in which they reside, or who is a descendant in the first or second degree of any such member, or (2) is considered by the Secretary of the Interior to be an Indian for any purpose, or (3) is an Eskimo, or Aleut, or other Alaska Native.

The deadline for postmark or delivery of applications for new starts is set in early September each year.

Thirteen fellowships will be awarded this year.

There is a stipend of $15,000 in addition to a research grant up to $3,500.

The application deadline is **December 30.**

RHODES SCHOLARSHIPS. Each year 32 American students are selected as Rhodes Scholars to attend the University of Oxford. Candidates must be U.S. citizens, unmarried, and between the ages of 18 and 23, inclusive, by October 1 of the year of application. Candidates are also required to have sufficiently advanced academic standing to complete a bachelor's degree before the end of the academic year in which an application is filed. Candidates are evaluated on merit, without regard to race or gender. Selection is based on four criteria: scholarship, character, leadership, and physical vigor. A Rhodes Scholarship entitles the recipient to a minimum of 2 year's study in the University of Oxford. The stipend of a Rhodes Scholarship consists of a director payment to the Scholar's College of approved fees, plus a maintenance allowance. A candidate applies in the State of legal residence or in the State in which he or she has received at least 2 years of college training. Information is available from institutional representatives at colleges and universities across the country or from the Office of the American Secretary, Rhodes Scholarship Trust, Pomona College, Claremont, California 91711.

ROCKEFELLER FOUNDATION HUMANITIES FELLOWSHIP. The program welcomes applications from writers and scholars in the traditional humanistic disciplines (such as literature, history, and philosophy) whose projects contribute to the analysis and evaluation of contemporary issues or values. Similar proposals in fields not usually defined as humanistic (such as political science, law, and anthropology) are encouraged if their humanistic implications are clear and substantial. Applicants need not have an academic or institutional affiliation. Awards cannot be made for completing graduate or professional studies, editing an anthology, developing curricula, or writing or translating poetry or fiction. For information on deadlines and procedures for applications, write to Rockefeller Foundation Humanities Fellowships, The Rockefeller Foundation, 1133 Avenue of the Americas, New York, 10336.

JULIUS A. THOMAS FELLOWSHIP PROGRAM. Council on career Development for Minorities, Inc., Suite 412-E, 1341 W. Mockingbird Lane, Dallas, Texas 75247.

The Julius A. Thomas Fellowship Program was created by the Council for Career Development for Minorities, Inc. (CCDM) (formerly College Placement Services, Inc.) to offer persons from ethnic minority groups an opportunity for graduate education focused on career counseling and the placement needs of minority students. Many 4-year colleges with growing or predominantly minority-student populations are seeking to employ career counselors and job-placement officers from minority groups.

Nine institutions--California State University - Long Beach, California; Florida A & M University in Tallahassee, Howard University in Washington, D.C., New Mexico State University - Las Cruces, New Mexico, North Carolina Central University in Durham, Pan America University in Edinbury, Texas, Texas Southern University in Houston, Texas, Tuskegee University in Alabama, and Virginia State University in Peterburg--are participating in this fellowship program.

A selection committee selects one of two persons annually for the fellowship award. Criteria for selection include: demonstrated interest or experience in career counseling and placement work at the collegiate level and academic and extracurricular achievement in college. The number of awards depends on the funds available each year. Each award can be used to pay tuition fees, and living expenses for 2 years of full-time study at the master's degree level. The maximum total grant is $2,500. In addition, an allowance of up to $150 for approved books and materials is available. There is also a summer internship available which pays $2,500.

Persons interested in applying for the Julius A. Thomas Fellowship Program should seek admission to the program at one of the participating institutions.

The deadline for receipt of applications at the CCDM office is May 1 annually.

TRAINING PERSONNEL FOR THE EDUCATION OF THE HANDICAPPED. Mr. Norman Howe, Division of Personnel Preparation, Office of Special Education, U.S. Department of Education, Switzer Building, Room 4633, 330 C Street, S.W., Washington, D.C. 20202, (202) 732-1068.

Student Financial assistance is granted to prepare students and regular special educational personnel to deal with the special educational needs of the handicapped. The purpose is to train teachers, supervisors, administrators, researchers, teacher-educators, speech pathologists, and other special service personnel such as specialists in physical education and recreation. Training for paraprofessionals and volunteers is also included.

Funds are allocated to colleges, universities, and State and local education and nonprofit agencies which select those to receive awards or training. In the preservice training program, those working at the under-graduate, master's, doctoral, or postdoctoral level may receive stipends
or tuition.

WOODROW WILSON NATIONAL FELLOWSHIP FOUNDATION: ADMINISTRATIVE FELLOWS PROGRAM. Director, Administrative Fellows Program, Woodrow Wilson National Fellowship Foundation, P.O. Box 642, Princeton, New Jersey 08542.

Administrative Fellows help meet the need for well-trained administrative management at the historically black colleges, Appalachian mountain schools, and Native American and certain other "developing colleges." The program affords outstanding graduates an opportunity for services and experiences in unique and challenging settings. Fellows serve as assistants to college presidents and business managers; and as directors of research, planning, and development. They have also been active in budgeting, investment analysis, operations analysis and research, student personnel administration, public relations, community projects, classroom teaching,and at hospitals associated with these colleges. Application deadline: February 1.

WOODROW WILSON WOMEN'S STUDIES RESEARCH GRANTS FOR DOCTORAL CANDIDATES. Woodrow Wilson National Fellowship Foundation, Department WS, P.O. Box 642, Princeton, New Jersey 08542.

Designed to encourage original and significant research about women on such topics as the evolution of women's role in society and particularly contemporary America, women in history, the psychology of women, and women as seen in literature. Applicants in doctoral programs who have completed all predissertation requirements in a field of study at graduate schools in the United States are eligible to apply.

Applications must be endorsed by the candidate's dissertation director and graduate dean. Supporting documents consist of graduate school transcripts, letters of reference, a dissertation prospectus, a statement of career plans, and a timetable for completion of the dissertation.

Grants averaging $1000 to be used for research expenses connected with the dissertation will be awarded. These may include travel, books, microfilming, taping, and computer services. Special awards will be offered for research on topics relating to the economy, business, public policy, the law and mental health.

ENGINEERING/SCIENCES

AMELIA EARHART FELLOWSHIP--ZONTA INTERNATIONAL. Zonta International, 557 West Randolph Street, Chicago, Illinois 60606.

Fellowships are offered for advanced study and research in aerospace-related sciences and engineering for study and research by young women scientists and to improve the academic status of women. Each award totals $6,000.

Candidates must have earned a bachelor's degree in a discipline basic to any of the many aerospace-related sciences, must show promise of original research potential, and must gain acceptance at a qualified graduate school.

AMOCO FOUNDATION Ph.D FELLOWSHIP PROGRAM. To motivate more and better qualified B.A. and M.S. students to obtain a Ph.D. Designed to alleviate shortage of Ph.D. trained engineers. Awards 3-year fellowships at selected colleges and universities. One-year Ph.D fellowships in earth and other physical sciences are also sponsored. For a list of participating institutions, write to Ph.D. Fellowship Program, AMOCO Foundation, Inc., 200 East Randolph Drive, Chicago, Illinois 60601.

FANNI AND JOHN HERTZ FOUNDATION FELLOWSHIPS are offered to outstanding students in the applied physical sciences for the support of (personal and institutional expenses) during graduate education directed toward the Ph.D. degree. Awarded on the basis of undergraduate and, in some cases, early graduate academic and research performance, personal and institutional recommendations, and results of an interview with an applied physical scientist representing the Hertz Foundation. Fellowship renewal is made annually on the basis of satisfactory progress toward the Ph.D. for a total of 3 years, with the fourth year extension under unusual circumstances. Applications and information may be obtained from the Hertz Foundation, P.O. Box 2230, Livermore, California 99550-0130.

FELLOWSHIPS FOR GRADUATE STUDY IN PHYSICS AND ASTRONOMY AT THE UNIVERSITY OF IOWA. Department of Physics and Astronomy, the University of Iowa, Iowa City, Iowa 52242.

The Department of Physics and Astronomy of The University of Iowa invites applications for fellowships in graduate study. We are interested in receiving applications from individuals with undergraduate training in disciplines other than physics, as well as students with a traditional undergraduate physics major. Stipends: $16,000

GRADUATE ENGINEERING FOR MINORITIES (GEN). Howard Adams, Executive Director, National Consortium for Graduate Degrees for Minorities in Engineering, P.O. Box 537, Notre Dame, Indiana 46556.

The National Consortium for Graduate Degrees for Minorities in Engineering, Inc., presently consists of 52 engineering colleges and 53 industrial and governmental laboratories. Formed in 1976 to encourage minority students to consider advance study in engineering, the Consortium offers financial support and practical laboratory work experience to American Indians, black Americans, Mexican Americans, and Puerto Ricans.

The minimum requirement for applying is enrollment in the junior year of undergraduate study in one of the engineering disciplines at an accredited engineering college. Those presently in their senior year of recently graduated are also encouraged to apply. An applicant's record must indicate the ability to pursue graduate studies in engineering. All applications must be received by December 1, annually.

Each student participant receives a stipend of $5,000 plus tuition and fees for the academic year--as well as summer employment at an industrial or government laboratory. An average of three semesters of graduate study.

GRADUATE FELLOWSHIP PROGRAM ONR Graduate Fellowship, American Society for Engineering Education, 11 Dupont Circle, Suite 200, Washington, D.C. 20036.

For study and research leading to doctoral degrees in specified engineering-science disciplines.

ONR will award up to 50 3-year fellowships for study and research at U.S. institutions offering doctoral degrees in designated fields.

Participants must be U.S. citizens and have a baccalaureate degree.

fellows will receive $15,000 for the first twelve months. ONR will pay the institution full tuition and fees and provide $2,000 to the Fellow's department.

Duration is up to 36 months if academic progress is satisfactory.

Fellowships are awarded in:

- Electrical Engineering
- Mathematics
- Applied Physics
- Naval Architecture/Ocean Engieering
- Oceanography
- Computer Science
- Materials Science
- Aerospace/Mechanical Engineering
- Biological/Biomedical Sciences
- Cognitive and Neural Sciences

GRE scores are (general test only) will be required to complete the degree.

HUGHES AIRCRAFT COMPANY FELLOWSHIPS are awarded on a nationwide competitive basis in the fields mentioned below to highly qualified individuals with at least a B average for study at selected universities. Two fellowship plans are available: (1) the work-study plan allows fellows to acquire work experience at a Hughes Aircraft facility along with a half-time academic program, and to earn income during the school year; (2) the full-study plan allows fellows to devote full time to academic work during the school year. Both plans include 10 to 12 weeks of full-time employment at a Hughes Aircraft facility prior to beginning fellowship tenure and during summer vacations. HEALTH/MEDICAL/DENTAL/NURSING

ASSOCIATED MEDICAL SCHOOLS OF NEW YORK, Office of Minority Affairs, 70 West 36th Street, Suite 302, New York, New York.

The Associated Medical Schools of New York (AMS) is a consortium of 13 medical schools in New York State. The AMS has recently established an Office of Minority Affairs which provides leadership and coordination to increase the number of minorities enrolled in New York State medical schools.

The Association has established an early nurturing and enrichment programs for junior and senior high school students and developed a relationship with minority undergraduate students to provide scholarships.

THE AMS SCIENCE AND TECHNOLOGY ENTRY PROGRAMS (STEP) supported by a grant from the New York State Department of Education and Robert Wood Johnson Foundation is designed for junior and senior high school students interested in the health professions. This program offers an array of services which include academic instruction in science and mathematics, tutoring assistance, seminars, counselling, field trips and other supplemental support such as a mentoring relationship with medical students and health professionals.

Full-time summer programs are conducted for 4-6 weeks at nine medical school sites. After school or Saturday programs at 10 medical sites are also available.

A grant of $200,000 was made to the AMS by the New York Community Trust for Scholarships to Economically Disadvantaged Minority Medical Students. The grant will provide 4 year scholarships of $5000 per year to seven students enrolled in New York State Medical schools who are black, Hispanic, or Native American. New York State Education Department, Albany, New York 12234.

AMERICAN FUND FOR DENTAL HEALTH. Dental scholarships for members of disadvantaged minority groups, particularly blacks, Hispanics, American Indians, and Puerto Ricans, who need financial aid to prepare for studies in dentistry. High School and college transcripts are required along with three letters of reference to receive awards of $2,000 a year. The scholarships are available to first and second year dental school students. For information and application contact American Fund for Dental Education, 211 E. Chicago Avenue, Chicago, Illinois 60611.

GRANTS FOR DENTAL RESEARCH AND SPECIAL PROJECTS. American Fund for Dental Health, 211 E. Chicago Avenue, Chicago, Illinois 60611, Telephone: (312) 787-6270.

The Fund is committed to supporting as many research projects as possible. Therefore, it has established the following guidelines for the Grants and Special Projects Program:

AFDH will fund a maximum stipend of $35,000.

AFDH will not fund multi-year grants; however, when justified, it will allow initial funding of a project that spans a 2 year period.

AFDH will not fund purchases of major equipment.

AFDH will not fund the Principal Investigator's salary.

The American Fund for Dental Health will consider requests for grant support from any qualified individuals, nonprofit organizations, and institutions within the United States or its protectorates.

AMERICAN FUND FOR DENTAL HEALTH HILLENBRAND FELLOWSHIP IN DENTAL ADMINISTRATION. Director of Programs, American Fund for Dental Health, 211 East Chicago, Avenue, Chicago, Illinois 60611.

Applicants must be resident U.S. citizens and be graduates of dental schools accredited by the Commission on Dental Accreditation.

Outstanding individuals are being sought for the Hillenbrand Fellowship program. Applicants will be judged on the basis of their academic records, practical dental experience, personal attributes, and motivation.

The fellow will receive one annual stipend of $40.000, plus an adequate budget for program travel and moving expenses to Chicago.

The deadline for applications to be submitted is December 1. Interviews will be conducted in February by the Hillenbrand Fellowship Advisory Committee. Notification of award will be made by March 1. The Fellows program will begin on July 1.

Official transcripts of all dental school academic records must be forwarded to the Fund. A one-page typewritten statement relative to future career plans and the area of interest for study in dental administration must accompany the application. Applicants must provide three letters of reference, attesting to their character, personality, and ability. Deadline for filing is December 1.

THE AMERICAN FUND FOR DENTAL HEALTH'S DENTAL TEACHER TRAINING FELLOWSHIP PROGRAM. Director of Programs, American Fund for Dental Health, 211 E. Chicago Avenue, Chicago, Illinois 60611, (312) 787-6270.

The American Fund for Dental Health's Dental Teacher Training Fellowship Program was created to prepare future dental educators and to help maintain a pool of highly qualified instructors for the nation's dental schools. Fellowships are for 1 year and carry a maximum stipend of $20,000.

DENTAL LABORATORY TECHNOLOGY SCHOLARSHIP. The American Fund for Dental Health, 211 East Chicago Avenue, Suite 820, Chicago, Illinois 60611, (312) 787-6270.

The American Dental Trade Association and the National Association of Dental Laboratories joined forces to establish the AFDH Dental Laboratory Technology Scholarship to help defray the cost of tuition and related educational expenses.

Applicants must have a high school diploma.

Applicants must be enrolled or accepted in an accredited laboratory technology program.

Students may be in their first or second year of study.

Students must agree to engage in dental laboratory technology for at least years.

Students awarded this scholarship are qualified to receive a $500 to $600 for tuition, books, and other educational-related expenses.

PH.D. IN NUTRITION SCIENCES/CANCER PREVENTION. Dr. Howerde Sauberlich, University of Alabama at Birmingham, Department of Nutrition Sciences, Birmingham, Alabama 35294, (202) 934-3859.

POPULATION COUNCIL BIO-MEDICAL FELLOWSHIPS. To further research and training in the physiology of reproduction, biochemistry, endocrinology, immunology, and steroid chemistry. Previous participation in some aspect of medical or biological research in the field of reproductive physiology is generally required; however, work in related areas may be substituted in some cases. Write to Fellowship Secretary, The Population Council, 1230 York Avenue, New York, New York 10021.

PROFESSIONAL NURSE TRAINEESHIP PROGRAM. Department of Health and Human Services, Public Health Service, Health Resources and Services Administration, Bureau of Health Professions, Division of Nursing, Rockville, Maryland 20857.

To prepare registered nurses to: a) teach in the various fields of nurse training (including practical nurse training), b) serve in administrative or supervisory capacities, c) serve as nurse practitioners, or d) serve in other professional nursing specialties determined by the Secretary of the Department of Health and Human Services to require advanced training. Traineeships are awarded to currently licensed professional nurses through grants to public or nonprofit private institutions providing master's and doctoral nursing programs to prepare nurses as teachers, researchers, administrators, nurse practitioners, or other nursing specialists. Programs must meet guidelines and regulations prescribed by the Secretary. Trainees are selected by participating training institutions in accordance with the institution's admission policies and the purpose of the traineeship program.

Tuition and fees as established by the institution; stipends not to exceed $6,552 per annum; and a maximum of 36 months of study. A candidate for a traineeship shall be a citizen of the United States or have been lawfully admitted to the United States for permanent residence; a graduate of a State-approved school of nursing and currently licensed as a professional nurse in a State or Territory of the United States; and able to enroll full-time in a course of study. Applications are mailed annually to eligible institutions. Students should request application forms and further information from the dean of the nursing program at the institution of their choice.

Graduate fellowships are also offered to members and nonmembers with high academic standing in fields other than rehabilitation. The same qualifications are required as for the rehabilitation scholarships.

INTERNATIONAL

AMERICAN INSTITUTE OF INDIAN STUDIES (AIIS). American Institute of Indian Studies, University of Chicago, 1130 East 59th Street, Chicago, Illinois 60637.

The AIIS offers research fellowships in Indian in the following categories:

Senior Research (post Ph.D. research), **Junior Research** (graduate student research for Ph.D.), Scholarly Development (for professionals affiliated with educational or artistic institutions wanting to further their careers with in-depth study in India), and **Translation** to support translations of Indian texts into English.

Applications may be requested from the AIIS, 1130 East 59th Street, Chicago, Illinois 60637.

COUNCIL FOR INTERNATIONAL EXCHANGE OF SCHOLARS 1992-92 ADVANCED RESEARCH FELLOWSHIPS IN INDIA. Contact: Lydia Z. Gomes, Senior Associate, Indian Programs Telephone: (202)-686-4017, Indo-American Fellowship Program, 3400 International Drive, Suite M-500, Washington, D.C. 20008-4013.

The Indo-U.S. Subcommission on Education and Culture is offering twelve long-term (6-10 months) and nine short-term (2-3 months) awards for 1991-92 research in India. These grants will be available in all academic disciplines, except clinical medicine.

Fellowship terms include: $1,500 per month, of which $350 per month is payable in dollars and the balance in rupees; an allowance for books and study/travel in India; and international travel for the grantee. In addition, long-term fellows receive international travel for dependents; and dependent allowance of $100-$250 per month in rupees; and a supplementary research allowance up to 34,000 rupees.

FELLOWSHIPS FOR INTERNATIONAL DOCTORAL DISSERTATION RESEARCH AND POSTDOCTORAL RESEARCH GRANTS. Fellowships and Grants, The Social Science Research Council, 605 Third Avenue, New York, New York 10158.

The Social Science Research Council and the American Council of Learned Societies provide fellowships for international doctoral dissertation research and grants to scholars holding the Ph.D. degree for international research. Applicants for the dissertation fellowships must have completed all work toward the doctorate except the dissertation by the time they take the fellowship. The fellowship provides 9-18 months in the field and an additional 6 months write-up-period at the home university after satisfactory completion of the field work. The areas of study include Africa, Asia, Latin America and the Caribbean, the Near and Middle East, Western Europe, and International Peace and Security Studies. Postdoctoral grants are available for research in or on Africa, China, Eastern Europe, Japan, Korea, Latin America and the Caribbean, the Near and Middle East, South Asia, Southeast Asia, Western Europe, the Comparative Study of Muslim Societies, and international Peace and Security Studies.

Applicants for some programs must be citizens or permanent residents of the United States. Fellowships and grants range between $3,000 and $25,000, depending upon the program. In requesting an application, each applicant must provide the Social Science Research Council with adequate information about educational background and citizenship. The deadline for applications for dissertation fellowships is November 1, and December 1 for the postdoctoral grants. Awards for both programs are announced by April 1 of the following year.

FULBRIGHT SCHOLAR PROGRAM COMPETITION. Council for International Exchange of Scholars, 3400 International Drive, Suite M-500, Washington, D.C. 20008-3097, (202)686-7866.

The Council for International Exchange of Scholars announces the opening of competition for Fulbright grants in research and university lecturing abroad.

The awards include about 1,000 grants in research and university lecturing for periods ranging from 3 months to a full academic year. There are openings in over 100 countries and in many regions. Opportunity exists for multicountry research. Fulbright awards are granted in virtually all disciplines, and scholars in all academic ranks are eligible to apply. Applications are encouraged from retired faculty and independent scholars.

Grant benefits, which vary by country, generally include round-trip travel for the grantee and, for most full academic-year awards, one dependent; stipend in U.S. dollars and/or local currency; tuition allowance for school-age children in many countries; and book and baggage allowances.

INTERNATIONAL DEVELOPMENT INTERN PROGRAM. The International Development Intern (IDI) Program trains qualified persons to become career Foreign Service Officers who will assume positions of increasing responsibility for planning, implementing, and managing A.I.D.'s foreign economic assistance programs. Interns develop the specialized talents A.I.D.'s programs require and are immersed in the professional international development network to which they will belong.

Starting salaries for IDIs are based upon academic and professional qualifications. Foreign Service pay scales are set by Congress and reviewed annually for cost-of-living adjustments.

Interns are reimbursed for their own and their dependent's travel to Washington, D.C., and shipment of household goods.

At overseas posts, Interns receive nontaxable quarters allowance or fees, nontaxable government housing, as well as nontaxable cost-of-living allowance where the cost of living is higher than in Washington, D.C. They also receive an education allowance for dependent children at post or away. A differential (taxable) of 10-25 percent of basic salary may be paid for service at designated overseas hardship posts with difficult living conditions.

> **Education:** For most target positions, a graduate degree in one of the following is required: agriculture, agricultural economics, economics education, housing/urban development, international relations, population, planning, public health/nutrition, public or business administration, or other closely related disciplines.
>
> **Experience:** Two or more years of pertinent professional experience is required for most target positions.
>
> **Foreign Language:** Foreign language proficiency is required for tenure in the Foreign Service. IDIs must have foreign language proficiency or they will receive training after employment. Preferred languages are French, Spanish, certain other languages, such as Arabic, spoken in the developing countries.

GRADUATE RESEARCH FELLOWSHIP PROGRAM: NATIONAL INSTITUTE OF JUSTICE. Send to Announcement, Graduate Research Fellowship Program, National Criminal Justice Reference Service, Box 6000, Rockville, Maryland 20850.

The Graduate Research Fellowship Program provides a limited number of fellowships which will be awarded to doctoral candidates through sponsoring universities, to support students engaged in the research and writing of a doctoral dissertation in the areas of crime, crime prevention, criminal behavior or criminal justice. Applicants must have completed all degree requirements except for the research, writing and defense of the dissertation and, if required, an internship, prior to awarding of the grant.

The Graduate Research Fellowship Program is competitive. Only a limited number of fellowship grants can be awarded each year. Proposals that address significant issues presently confronting criminal justice in the United States are especially encouraged.

Graduate students from eligible institutions interested in competing for a fellowship must submit a brief (approximately 10 typewritten pages), double-spaced concept paper describing the proposed research and methodology. The concept paper should include the following: title page, background statements, sponsor's statement, concept paper narrative, and budget.

HUBERT H. HUMPHREY DOCTORAL FELLOWSHIP IN ARMS CONTROL AND DISARMAMENT. The Hubert H. Humphrey Fellowship Program, U.S. Arms Control and Disarmament Agency, Washington, D.C. 20451.

The U.S. Arms Control and Disarmament Agency (ACDA) conducts a program of Hubert H. Humphrey Fellowships in Arms Control and Disarmament. Seven rounds of competition have been held since the program's inception in 1978, and 41 awards have been made. Named in honor of the Agency's Congressional "founding father," the fellowships are intended to stimulate interest in the study of arms control by supporting unclassified doctoral dissertation research in the field. Candidate for the J.D. (law) are also eligible for

Fellowships. This program is part of the Agency's legislatively mandated responsibilities for the "conduct, support, and coordination of research for arms control and disarmament policy formulation.

Students in a wide range of academic disciplines--including, but not limited to, political science, economics, law, sociology, psychology, physics, chemistry, biology, engineering, philosophy, public policy, operations research, and area studies--may apply.

Applicants must be U.S. citizens or nationals at the time of application and recipients must have completed academic requirements at a U.S. college or university for the doctorate (excluding dissertation) by the date the Fellowship begins. J.D. candidates are also eligible if they will receive 20 percent of the required third-year academic credits for the writing of a research paper.

The basic fellowships are awarded for Ph.D. dissertation research and are normally for a period of 12 months commencing in either September or January. Each Fellow will receive a stipend of $5,000. In addition, ACDA will pay any applicable tuition and fees for 1 year up to a maximum of $3,400 to the institution in which the Fellow is enrolled. For J.D. candidates, who unlike Ph.D. candidates do not devote a full year to research, the Fellowship stipend of $5,000 and the tuition grant of up to $3,400 will be prorated dividing the number of credits assigned to the writing of the J.D. paper by the total number of credits assigned by the Fellow's law school; in no case, however, shall the stipend be smaller than $1,000, nor shall the tuition be less than 20 percent of the tuition charged by the law school.

No applicant will be eligible for more than one Hubert H.Humphrey Fellowship, although in exception cases extension for Ph.D. candidates of up to 3 additional months may be granted (prorated at $420 per month).

GOALS OF THE PROGRAM: To provide research opportunities for recent awardees of the doctorate and to increase the number of women and minority professionals working in the areas specified above.

WHO SHOULD APPLY: The program is open to any individual who holds a doctorate in a relevant discipline and provides evidence of prior research. Graduates, 3624 Market Street, Philadelphia, Pennsylvania 19104.

EUROPEAN ORGANIZATION FOR NUCLEAR RESEARCH (CERN). Candidates for fellowships must be nationals of member states (14 European countries); individuals of any nationality may apply for Scientific Associate appointments. All candidates must have postgraduate research experience in particle physics. Fields are fundamental, theoretical, and experimental studies of sub-nuclear physics phenomena and related development and research in the applied sciences, engineering, and computer technology.

Write to Fellows and Associates Service, European Organization for Nuclear Research (CERN), 1211 Geneva 23, Switzerland.

FELLOWSHIPS FOR INTERNATIONAL DOCTORAL DISSERTATION RESEARCH AND POSTDOCTORAL RESEARCH GRANTS. Fellowships and Grants, The Social Science Research Council, 605 Third Avenue, New York, New York 10158.

The Social Science Research Council and the American Council of Learned Societies provide fellowships for international doctoral dissertation research and grants to scholars holding the P.D. degree for international research. Applicants for the dissertation fellowships must have completed all work toward the doctorate except the dissertation by the time they take the fellowship. The fellowship provides 9 to 18 months in the field and an additional 6 months write-up-period at the home university after satisfactory completion of the field work. The areas of study include Africa, Asia, Latin America and the Caribbean, the Near and Middle East, Western Europe, and International Peace and Security Studies.

Postdoctoral grants are available for research in or on China, Africa, Eastern Europe, Japan, Korea, latin America and the Caribbean, the Near and Middle East, South Asia, Southeast Asia, Western Europe, the Comparative Study of Muslim Societies, and International Peace and Security Studies.

Applicants for some programs must be citizens or permanent residents of the United States. Fellowships and grants range between $3,000 and $25,000, depending upon the program. In requesting an application each applicant must provide the Social Science Research Council with adequate information about educational background and citizenship. The deadline for applicants for the dissertation fellowship is November 1, and December 1 for the postdoctoral grants. Awards for both programs are announced by April 1 of the following year.

FIELD RESEARCH GRANTS. The Center for Field Research, 680 Mount Auburn Street, Box 403, Watertown, Massachusetts 02172.

Private grants for field research are offered for field research anywhere in the world in humanities and sciences that need volunteers and funds. Grants range from $5,000 to $50,000, with the average being $18,000.

Volunteers have been used to excavate, map, photograph, and observe animal behavior; gather ethnographic data, assist during operations, and share all field chores of expedition research.

Full proposals must be submitted not later than 12 months before project date. Peer review decisions are made in 8 weeks.

Postdoctoral (or the equivalent) scholars of any nationality, women, and minority applicants are encouraged to apply. Research teams must include qualified volunteers from **EARTHWATCH**.

Submit a preliminary proposal to Dr. Turig Johnson, Director, Center for Field Research.

FORD FOUNDATION DOCTORAL FELLOWSHIPS FOR MINORITIES.

Predoctoral Fellowships: Approximately 40 Predoctoral Fellowships will be awarded. Each fellowship provides up to a maximum of 3 years of support, with the first year of tenure to begin no later than September 1. FULBRIGHT SCHOLARS PROGRAM. The Council for International Exchange of Scholars has announced the opening of competition for the 1988-89 Fulbright grants in research and university lecturing abroad.

The awards for 1988-89 include 3000 grants in research and 700 grants in university lecturing for periods ranging from 3 months to a full academic year. There are openings in over 100 countries and, in some instances, the opportunity for multi-country research is available. Fulbright Awards are granted in virtually all disciplines, and scholars in all academic ranks are eligible to apply. Applications are also encouraged from retired faculty and independent scholars.

Benefits include round-trip travel for the grantee and, for most full academic year awards, one dependent; maintenance allowance to cover living costs of grantee and family; tuition allowance in many countries for school-age children; and book and baggage allowances.

The basic eligibility requirements for a Fulbright Award are U.S. citizenship; Ph.D. or comparable professional qualifications; university or college teaching experience; and, for selected assignments, proficiency in a foreign language. It should be noted that a new policy removes the limit of two Fulbright grants to a single scholar.

Application deadlines for the awards are: June 15 (for Australasia, India, and Latin America, except lecturing awards to Mexico, Venezuela, and the Caribbean); September 15 (for Africa, Asia, Europe, the Middle East, and lecturing awards to Mexico, Venezuela, and the Caribbean); November 1 (for Administrators' Awards in Germany, Japan, and the United Kingdom; the Seminar in German Civilization; the NATO Research Fellowships, and the Spain Research Fellowships); and February 1 (for the France, Italy, and Germany Travel-Only Awards).

For more information and applications, call or write the Council for International Exchange of Scholars, Eleven Dupont Circle, N.W., Washington, D.C. 20036-1257, (202) 939-5401.

HELEN HAY WHITNEY FOUNDATION POSTDOCTORAL RESEARCH FELLOWSHIPS offer 3-year fellowships to young men and women under 35 years of age who hold the M.D., Ph.D., or equivalent degree, and are seeking beginning postdoctoral training in basic biomedical research. Applications from established scientists or advanced fellows will not be considered. Write to the Helen Hay Whitney Foundation, 450 East 63rd Street, New York, New York 10021.

JOHN SIMON GUGGENHEIM MEMORIAL FOUNDATION FELLOWSHIPS has two annual competitions--one open to citizens and permanent residents of the United States and Canada; the other, to citizens and permanent residents of all the other American states, of the Caribbean, of the Philippines, and of the French, Dutch, and British possessions in the Western Hemisphere. Fields: unrestricted. The purpose is to improve the quality of education and the practice of the arts and professions, to foster research, and to provide for the cause of better international understanding. Awarded to men and women of high intellectual and personal qualifications who have already demonstrated unusual capacity for productive scholarship, or unusual creative ability in the fine arts. The fellowships are all on advanced professional level; the foundation does not make training grants. Write to the President, John Simon Guggenheim Memorial Foundation, 90 Park Avenue, New York, New York 10016.

MARY INGRAHAM BUNTING INSTITUTE OF RADCLIFFE COLLEGE. The Institute is one of the largest centers in the country awarding postdoctoral fellowships. Residence in the Boston area required during the term of appointment.

NRC RESEARCH ASSOCIATESHIPS AND RESIDENT RESEARCH ASSOCIATESHIPS (POSTDOCTORAL AND SENIOR POSTDOCTORAL). Offered in basic and applied physical, biological, and medical sciences, and in some aspects of engineering sciences. Except where it is noted in the laboratory's program description, appointments are available at the senior postdoctoral level to individuals at least 5 years beyond the doctorate whose research experience has resulted in publication and recognition as established contributors in their fields. All programs have a January 15 deadline for receipt of applications; the NASA program and some others have additional deadlines during the year. Please state laboratory (or laboratories) of interest when requesting information. Write to Associateship Programs, National Research Council, 2101 Constitution Avenue, Washington, D.C. 20418.

NATIONAL ACADEMY OF SCIENCES SOVIET AND EAST EUROPEAN EXCHANGES. Office of International Affairs, National Research Council, 2101 Constitution Avenue, N.W., Washington, D.C. 20418.

The National Academy of Sciences sponsors exchange programs of individual scientists with the Academies of Sciences of USSR, Bulgaria, Czechoslovakia, the German Democratic Republic (GDR), Hungary, Poland, Romania, and Yugoslavia. The disciplines include physics, chemistry, mathematics and computer sciences, earth, atmospheric, and oceanographic sciences, agricultural, forestry, fishery, and plant sciences, biological sciences, environmental sciences, engineering, archeology and anthropology, geography, and psychology. Also included are science and technology policy and those aspects of the economic and social sciences that involve quantitative analysis as a primary consideration. Other scientific disciplines not explicitly mentioned will be considered on a case-by-case basis.

The programs are intended to facilitate exchanges that will lead to significant scientific publications jointly authored by U.S. and foreign colleagues in areas of high scientific interest. Also, the programs are intended to provide American and foreign scientists access to colleagues, specialized facilities, unique data bases, and geographical areas that can significantly enrich research and publications of interest to the U.S. scientific community.

Applications from individuals who posses U.S. citizenship and the doctoral degree or research training and experience equivalent to a doctoral degree will be considered.

NATIONAL CENTER FOR ATMOSPHERIC RESEARCH (NCAR)--POSTDOCTORAL APPOINTMENTS. Betty Wilson, Administrator, Advanced Study Program, National Center for Atmospheric Research, P.O. Box 3000, Boulder, Colorado 80307.

NCAR is an independent research institution in Boulder, Colorado. It is operated by the nonprofit University Corporation for Atmospheric Research (UCAR), under sponsorship of the National Science Foundation. Through its Advanced Study Program (ASP), NCAR offers a continuing program of postdoctoral study in the atmospheric sciences.

The postdoctoral program has several related goals. One is to provide an opportunity for talented atmospheric scientists who have recently received their Ph.D.s to continue their research interests and develop expertise in new areas. The program also seeks to enrich the research talent in the atmospheric sciences by offering an opportunity for highly qualified Ph.D. physicists, chemists, applied mathematicians, engineers, and specialists from other natural scientific disciplines such as biology and geology to apply their training to research in the atmospheric sciences. The NCAR program also includes studies of the interaction of the atmosphere and society.

Interested scientists just receiving the Ph.D. and scientists with no more than 4 years applicable experience past the Ph.D. are eligible. (Scientists with more experience should apply to the Director of the division in which they would like to work as a Visiting Scientist.)

NATIONAL RESEARCH SERVICE AWARDS. Grants Inquiries Office, Division of Research Grants, National Institutes of Health, Bethesda, Maryland 20205.

Under authority of Section 472 of the Public Health Service Act, as amended, the National Institute of Health supports National Research Awards through institutional training grants and individual postdoctoral fellowships. Individuals appointed as trainees on the grant must be citizens or on-citizen nationals of the United States, or must have been lawfully admitted to the United States for permanent residence and have an Alien Registration Receipt Card (I-151 or I-155) at time of appointment.

Institutional Training Grants: Grants are awarded to domestic non-profit private or public institutions to develop or enhance predoctoral and postdoctoral research training opportunities for selected individuals who are interested in careers in biomedical and behavioral research.

Individual Postdoctoral Fellowships: Awards are made at the postdoctoral level to individuals interested in receiving training experience in biomedical and behavioral research.

NATO POSTDOCTORAL FELLOWSHIPS IN SCIENCE. National Science Foundation, Division of Research Career Development, NATO Fellowship Program Office, Room 414, 1800 G Street, N.W., Washington, D.C. 20550.

These fellowships, normally awarded for tenure of either 9 or 12 months, are for persons planning to enter or continue postdoctoral study in the sciences at a nonprofit institution in NATO member countries or in those which cooperate closely with NATO. Fields covered are the mathematical, physical, biological, engineering, and social sciences, and the history and/or philosophy of science as well as interdisciplinary fields comprised of two or more of these sciences. A list of the specific fields supported in this program is included in the application materials.

Applicants must be U.S. citizens or nationals, have demonstrated ability and special aptitude for advanced training in the sciences, and have, or will have earned doctoral degrees in any of the qualifying fields of science within the past 5 years, or have had research training and experience equivalent to the doctoral degree. Applications are due early in November 1991. Awards will be announced in February 1992.

THE OHIO STATE UNIVERSITY POSTDOCTORAL FELLOWSHIPS. Roy A. Koenigsknecht, Dean of the Graduate School, The Ohio State University, 230 North Oval Mall, #250, Columbus, Ohio 43210-1366.

Appointment is for 1 or 2 years with a stipend of $22,500 for a 12 month appointment. An additional supplementation of up to $500 is provided to assist with moving expenses to Columbus. A one-time $500 allowance is also available for travel to professional meetings.

Only those postdoctoral fellowship applications sponsored by a graduate faculty member of The Ohio State University will be considered by the Graduate School. Prospective applicants are advised to make early contact with a faculty member.

Candidates must have received the Ph.D. degree, or comparable professional degree, within the past 5 years. Contact a member of The Ohio State University graduate faculty.

POSTDOCTORAL FELLOWSHIPS FOR MINORITIES. Supported by the Ford Foundation and administered by the National Research Council. Applicant must: (1) be a citizen or national of the United states by the application deadline date; (2) be a member of one or more of the following ethnic minority groups: American Indian, Alaska native (Eskimo or Aleut). Black American, Mexican American/Chicano, Native Pacific Islander (Micronesian or Polynesian), or Puerto Rican; (3) have earned the Ph.D. degree or an equivalent research doctorate or terminal degree in a field for which a Ph.D. is not offered, such as the MFA degree, by the application deadline date. Fields are behavioral and social sciences, humanities, engineering, mathematics, physical sciences, biological sciences, and interdisciplinary programs comprised of two or more eligible disciplines.

Awards will not be made in professions such as medicine, law, social work, library science, and areas as business administration and management, educational administration, curriculum development and supervision, teacher training, and personnel and guidance.
The purposes are to identify individuals of high ability who are members of minority groups that have been traditionally under underrepresented among the Nation's behavioral and social scientists, humanists, engineers, mathematicians, physical scientists, and life scientists, and to enable them to engage in postdoctoral research and scholarship in an environment free from interference from their normal professional duties; to help young teacher scholars either preparing for or already engaged in college or university teaching and research to achieve greater peer recognition in their respective fields and to develop the professional associations that will make them more effective and productive in academic employment; to identify and support a smaller number of outstanding senior teacher-scholars, providing them with an opportunity for professional enrichment and research. Awarded for research at appropriate nonprofit institutions of higher education or research primarily in the United States, such as research universities, government laboratories, national laboratories, privately sponsored nonprofit institutes, and centers for advanced study. Write to Fellowship Office, National Research Council, 2101 Constitution Avenue, Washington, D.C. 20418.

POSTDOCTORAL RESEARCH FELLOWSHIPS IN CARDIOVASCULAR DISEASE PREVENTION. Stephen P. Fortmann, M.D., Deputy Director, Stanford Center for Research in Disease Prevention, Stanford University School of Medicine, 1000 Welch Road, Palo Alto, California 94304-1885.

The Stanford Center for Research in Disease Prevention, a multidisciplinary group of researchers in the broad field of chronic disease prevention, is seeking applicants for postdoctoral research fellowships. Emphasis is on direct research experience in cardiovascular disease, epidemiology, health education, health psychology, health communication (including mass media), behavioral medicine, exercise physiology, nutrition, and biostatistics. Appointments are from 1 to 3 years.

POSTDOCTORAL FELLOWSHIPS IN GASTROENTEROLOGICAL RESEARCH. LaRusso, M.D., Program Director, NIH Training Grant, Mayo Clinic, Rochester, Minnesota 55905.

Faculty employs multidisciplinary approach using biochemical, cell/molecular biological, immunological, physiological and electrophysiological techniques. Applicant may focus on clinical and/or basic studies. Applicants should have M.D. or Ph.D. Send curriculum vitae and names of three references to N.F.

ROCHE INSTITUTE OF MOLECULAR BIOLOGY POSTDOCTORAL FELLOWSHIPS. Awarded to recent recipients of the M.D., Ph.D., or equivalent degree in the biological or biochemical sciences such as biochemistry, genetics, virology, neurobiology, pharmacology, and other areas of molecular biology. Offers basic research training opportunities for approximately 90 postdoctoral fellows with a choice of over 30 staff members at the Institute. Write to Roche Institute of Molecular Biology, Nutley, New Jersey 07110.

ROCKEFELLER FOUNDATION HUMANITIES FELLOWSHIPS. Humanities Fellowships, The Rockefeller Foundation, Division of Artsand Humanities, 1133 Avenue of the Americas, New York 10036.

Rockefeller Foundation Humanities Fellowships are offered as year-long or half-year residencies at host institutions selected for their potential to promote scholarship in the humanities. These fellowships support postdoctoral scholars in the humanities and cannot be used for the completion of graduate studies or advanced training. The residencies are intended to make outstanding resources accessible to individual scholars, to promote exchange within and between disciplines, and to strengthen the newer fields in the humanities.

All inquiries about eligibility, stipends, procedures for application and deadlines should be addressed to the residency sites. A list of current host institutions offering Rockefeller Foundation Humanities Fellowships can be obtained by writing to the above mentioned address.

SALLY BUTLER MEMORIAL FUND FOR LATINA RESEARCH. Research Associates, Business and Professional Women's Foundation, 2012 Massachusetts Avenue, N.W., Washington, D.C. 20036.

Awards funds to support research by women of Latin American descent or citizenship, including the Caribbean, North, South, and Central American regions, on issues concerning women. Applicants should be doctoral or postdoctoral scholars or individuals able to demonstrate that the proposed research will be conducted under standards of scholarship recognized at the doctoral level.

Awards range between $500 and $3,000. Two or three awards are made annually. Applications are available after September 1; completed applications must be postmarked by January 1. A preliminary letter stating the proposed research subject, academic level, and Latina descent or citizenship must accompany the request for an application.

SMITHSONIAN INSTITUTION OPPORTUNITIES FOR RESEARCH AND STUDY. Office of Fellowships and Grants, Smithsonian Institution, Washington, D.C. 20560.

The Smithsonian Institution offers fellowships and internships for research and study in fields which are actively pursued by the museums and research organizations of the Institution.

Predoctoral and postdoctoral fellowships of 6 months to 1 year duration and senior postdoctoral fellowships of 3 months to 1 year duration are available. Graduate student fellowships are available for 10 weeks. Deadline for applications to the predoctoral, postdoctoral, senior postdoctoral, and graduate student fellowship program is January 15 annually. Others vary.

The Smithsonian offers faculty fellowships for minority scholars, awarded to provide opportunities for minority faculty members to conduct research in association with members of the Smithsonian professional research staff, using facilities and collections of the Institution. Awards may be made for 2 to 4 months, and stipends are determined by the appointee's faculty status. Deadline is February 15 of each year.

WOODS HOLE OCEANOGRAPHIC INSTITUTION. Tenable at the Woods Hole Oceanographic Institution only. The programs are:

> **Marine Policy and Ocean Management Postdoctoral Fellowships.**
>
> **Postdoctoral Scholar Awards in Ocean Science and Engineering.**
>
> **Summer Student Fellowships.** Awards to upperclass undergraduates or beginning graduates studying at colleges or universities in any of the fields of science or engineering with at least a tentative interest in oceanography and/or marine policy.
>
> **Traineeships in Oceanography for Minority Group Undergraduates.** Awarded to minority undergraduates who are enrolled in U.S. colleges or universities and have completed at least 2 semesters of undergraduate study. These awards provide a training and research experience in Woods Hole for students who have academic interests in physical or natural science, mathematics or engineering. Traineeships may be awarded for a 10-to-12 week period in the summer or for a semester during the academic year and may be renewed the following year.

A Trainee is paid the same salary as that paid other employees with similar experience. n In addition the Trainee receives the cost of round-trip travel to Woods Hole.

Postdoctoral Investigator Appointments.

David Lynch, Dean, The Graduate School and Research, 129 Stright Hall, Indiana University of Pennsylvania, Indiana, Pennsylvania 15705. Applicants must demonstrate strong academic preparation, potential for excellence in teaching and research, and the energy and intellect to contribute to the community of doctoral scholars at IUP. Minority and women scholars are encouraged to apply.

Fellowships will be awarded for one academic year beginning September 1990. The fellowship stipend is $5,000 and is accompanied by either a graduate assistantship award or a teaching associate award. Terms of the graduate assistantship and teaching associate awards vary by discipline and university policy. The combined stipend for fellowship and award ranges from $10,000 to $13,000.

MINORITY TEACHING FELLOWSHIPS SUMMER 1991. For information/application, contact: Dean Michael E. Conaughton, 101 KVAC, St. Cloud State University, 720 S. 4th Avenue, St. Cloud, Minnesota 56301.

The College of Fine Arts and Humanities at St. Cloud State University is offering $3000 teaching fellowships summer of 1991 to minority graduate students entering the final year of terminal degree academic programs and preparing to be college teachers in Art, English, Jazz Studies, Philosophy, and Speech Communication.

THE GMAC-AACSB MINORITY SUMMER INSTITUTE. c/o Graduate Management Admissions Council, 11601 Wilshire Boulevard, Suite 760, Los Angeles, California 90025.

Business schools face a critical shortage of minority professors. According to current estimates, by the year 2000, 28 percent of the college age population will be black, Hispanic and Native American, while less than 3 percent of business professors will be from those groups. The Graduate Management Admission Council-American Assembly of Collegiate Schools of Business Minority Summer Institute, to be held June 10-July 20, 1990, at the University of Michigan, is intended to increase the number of minority students pursuing the Ph.D and careers as business school faculty.

The institute will bring together 30 talented black, Hispanic, and Native American college seniors in order to introduce them to the challenges and rewards of the career of a business professor. Applicant will be considered from a variety of academic disciplines, including economics and other social sciences, humanities, education, engineering, and business. Previous study in business is not required. The program provides the following financial assistance to all participants:

Travel to and from Ann Arbor
Tuition and fees
Planned extra-curricular activities
Housing/Meals
Books and supplies
$2,500 stipend

In addition, participants who successfully complete the program will receive 6 hours of credit from the University of Michigan.

DOCTOR OF PSYCHOLOGY (PSY.D.) MASSACHUSETTS SCHOOL OF PROFESSIONAL PSYCHOLOGY. Admissions Office, Massachusetts School of Professional Psychology, 322 Sprague St., Dedham, Massachusetts 02026, or Lorraine J. Heilbrunn, Ph.D. Director of Admissions, or Robin Lacasse, Assistant to the Director of Admissions.

The 4-year (full-time) program is designed to integrate theoretical knowledge in psychology with practical experience. Students are concurrently engaged in academic coursework and field experience throughout the program. $40,000 per year, for 4 years, has been donated to MSPP for scholarship aid to minority students. Since this money is the result of a one-shot donation, we hope that minority students will give special consideration to applying to MSPP.

GENERAL ELECTRIC MINORITY SCHOLAR POSTDOCTORAL FELLOWSHIP. Deborah F. Pokinski, Associate Dean of Faculty, Hamilton College, Clinton, New York 13323.

Hamilton College seeks to encourage minority scholars interested in teaching and research careers in small liberal arts colleges. With grant assistance from the General Electric Foundation, the college offers a 1-year Postdoctoral fellowship for applicants in either Chemistry, Physics, Mathematics, or Computer Science. The stipend will equal the competitive salary for an assistant professor in these fields. Start-up costs to fund research will also be available. The fellow will be expected to teach one course in each term of residence and to participate fully in the life of the college. Candidates should be citizens of the U.S. and have received their Ph.D. degree between September 1985 and September 1990.

THE GRADUATE SCHOLARS PROGRAM at Indiana University of Pennsylvania invites applications for graduate assistantship awards from American citizens of minority heritage. IUP offers both masters and doctoral degrees in a variety of academic disciplines.

Dr. Evelyn S. Mutchnick, Graduate Scholars Program 126 Stright Hall, Indiana University of Pennsylvania, Indiana, Pennsylvania 15705.

The award includes a graduate assistantship stipend ranging from $4,080 to $5,600 (stipend varies by discipline) and full tuition waiver. The recipient of a graduate assistantship award in the Graduate Scholars Program receives funding throughout his/her academic career at IUP by maintaining academic good standing and full-time enrollment.
